3. Tap on "vmware view for ipad" in the search results.

4. Tap the **Free** button for the VMware View Client app.

5. Tap the **Install App** button.

6. After the app is installed, you can tap the **Open** button, or you can launch the app from the **Vmware View** icon on the home screen.

7. Launch the Vmware View app and tap the **Add Server** button.

- 8. Enter the server address: mypc.mercer.edu
- 9. Tap the **Connect** button.

10. Enter the same username and password you use to log in to your computer and tap the **Done** button.

11. Tap the desktop named **MYPC_MPH**

12. Tap the **Done** button.

13. You can now access your desktop.

14. The next time you launch the VMware View app, you can just tap the MYPC_MPH icon to access your desktop again.
